APPENDIX

Vol. 31, No. 11 March 17, 1972

MICROFILMING CLEARING HOUSE BULLETIN No. 89

Yale University Library Catalog

The Yale University Library recently published on 16 mm microfilm the main catalog of the University Library. The Sterling Memorial Library public catalog contains full card sets for all books housed in the main library—over 3.5 million volumes—and at least main entry cards for books housed in other libraries at Yale—over two million volumes. The microfilm version contains 724 reels and was produced during 1969-1970.

The price of the microfilm catalog is $5,600; the cost for orders of 10 or fewer reels is $15 per reel. For further information write to the Publications Office, Yale University Library, New Haven, Conn. 06520.

The London Times

The New York *Times* Company has acquired exclusive rights to produce and distribute *The Times* of London, its literary and educational supplements, and *The Sunday Times* on microfilm in the United States and Canada, effective July 1972. The collection, dating from 1785 to the present, is being refilmed page by page from the original newspapers and produced to modern library standards by Microfilming Corporation of America, a subsidiary of the New York *Times*.

An annual subscription costs $288. For further information write to Karl Horwitz, The New York Times, Library and Information Services Division, 229 West 43d Street, New York, N.Y. 10036.

The Royal Gazette

The Bermuda Library has embarked upon a program to microfilm its files of *The Royal Gazette*, formerly *The Bermuda Gazette*, Bermuda's first newspaper dating back to 1784. A price list is not yet available. For further information write to the Head Librarian, Bermuda Library, Hamilton, Bermuda.

LC Preservation Microfilming Office

The Microfilming Clearing House Bulletin No. 88 contains a list which represents the output of the Preservation Microfilming Office of the Library of Congress for the first quarter of 1971. The favorable response from readers prompts an explanation of the reasons for publishing such a list.

The Preservation Microfilming Office reports its output of titles microfilmed to the *National Register of Microform Masters*. The reports are edited by the *Register* staff and proper bibliographic entries are prepared for inclusion in its yearly issues. The *Register*, however, has been behind schedule for some time [see *MCH Bulletin* No. 87] and will not become current before the summer of 1973. The Preservation Microfilming Office suggested that in the meantime the *MCH Bulletin* publish periodic lists of their production until the *Register* is current again. Such information, they reasoned, would be useful to the library community and the general public. The Office even graciously offered to prepare the entries for their lists.

The following list is the Preservation Microfilming Office's output for the second quarter of 1971. Orders for positive microfilm should be placed with the Photoduplication Service, Library of Congress, Washington, D.C. 20540.
